Dearborn County Hospital
600 Wilson Creek Road
Lawrenceburg, IN

Saturday, April 8
8:00 - 11:00 a.m.
Miami Center
8 North Miami Avenue
Cleves, OH

- Health-A-Fair features a wide variety of exhibits and screenings -

A Blood Chemistry Analysis will be offered for a fee of $30. For the most accurate results, a 12 hour fast immediately before the test is recommended. People with diabetes or those under a physician's/nurse practitioner's care should consult their care provider before fasting. Individuals who require food or beverages, other than water, to be taken with their medications during the fasting period may also wish to consult their provider. Fasting for Health-A-Fair is usually described as nothing to eat or drink except black coffee, plain tea, water and necessary medications.

A Prostate Specific Antigen (PSA) Screening for men will be available for $10. No preparation is necessary on the part of the participant.

To have blood drawn for the blood chemistry analysis and/or PSA screening, you must have a physician/nurse practitioner to whom your blood chemistry/PSA results will be sent. You will need their name and address at the time of registration. Both you and your physician/nurse practitioner will receive a copy of your results.

For more information, please call:
812-537-8190 or 800-676-5572, ext. 8190

Health-A-Fair screenings do not in any way take the place of an examination by a healthcare professional. Information on physicians/nurse practitioners accepting new patients is available by calling 812-537-8300 or 800-676-5572, ext. 8300, or by visiting the hospital's website at DCH.org.
